

A GREEN GROUP COMPANY

C02 reduction **STATEMENT**

We recognize partners who help divert plastic bottles from our land and oceans using GreenFiber recycled polyester staple fiber, reducing up to 50% CO2 emissions.

With every purchase of GreenFiber recycled polyester staple fiber, we play a key role in fighting climate change!

**You reduced 880 tons of CO2 emissions
by purchasing 1000 tons of
100% recycled polyester staple fibers*.**

Thank you for teaming with us by being climate positive with every purchase.
